

Sea Container Annual Quarantine Declarations

1. Quarantine declarations for containers may be approved on annual basis in situations where an exporter regularly supplies the same type of containerised cargo to an importer in New Zealand.
2. These declarations must include all of the details shown in the example annual quarantine declaration at the end of this document.

Annual quarantine declarations must be completed by the exporter, printed on the exporter's letterhead and signed by the exporting company.

The exporter name, exporter code, importer name and importer code used when the Import Entry is lodged on arrival in New Zealand must be included in lieu of the container number, vessel name and voyage number. The importer and exporter code can be obtained by the NZ Customs Agent who usually organises the clearance of the consignments.

3. If wood packaging is used in the containers it must be ISPM 15 compliant. This is because the requirements for wood packaging are going to change within the next 12 months (i.e. within the life of the annual quarantine declaration).
4. The **original** annual quarantine declaration should be submitted for approval to:

National Programme Manager – Sea Containers
PO Box 966
Hamilton
5. MAFQS will carry out an inspection on the first consignment covered by the annual quarantine declaration to verify that the container conforms to the information provided. The costs for carrying out this verification will be charged to the importer. The importer or agent should notify MAFQS when this consignment arrives and organise for the inspection to be carried out. The annual quarantine declaration is not valid until this inspection is completed.
6. After the verification inspection, and if the container complies with the information received, the declaration will be endorsed and returned to the applicant.
7. A copy of this annual quarantine declaration should be held with the commercial documentation for each consignment that it used to clear. The annual quarantine declaration must be presented to the MAF Quarantine Service when requested.
8. When the declaration expires the applicant must repeat the process or obtain individual quarantine declarations for each subsequent container.
9. Consignments cleared using an annual quarantine declaration will be subject to the same audit processes as other consignments.

Annual Quarantine Declaration for Sea Containers entering New Zealand
